Summary

Entry-level **Java Backend Developer** and **Python Developer** — B.Tech CSE, CGPA **8.9/10**, April 2026. Hands-on experience designing and building **RESTful APIs**, **automated pipelines**, and **data-driven solutions** using **Java**, **Spring Boot**, **Spring Security**, **MySQL**, and **Python** across two internships and multiple backend projects. Strong foundation in **OOP**, **Data Structures & Algorithms**, **Agile/Scrum**, and **unit testing**.

Technical Skills

Languages: Java (Advanced), Python, SQL, JavaScript

Backend: Spring Boot, Spring MVC, Spring Security, REST API, JWT Authentication, Spring Data JPA, Hibernate, JDBC, Maven

Core Java: OOP, Collections Framework, Multithreading, Exception Handling, Generics, DSA, JUnit

Python: Pandas, NumPy, Matplotlib, Streamlit, scikit-learn

Database: MySQL, RDBMS, SQL Queries, Joins, Indexing, Schema Design, Database Optimization

Tools: Git, GitHub, Postman, VS Code, Maven

Methodologies: Agile, Scrum, SDLC, Code Reviews, Unit Testing, Version Control

Internship Experience

Java Full Stack Developer Intern

Mar 2025 – Jun 2025

CODTECH IT Solutions

Hyderabad, India

- Designed and developed **RESTful APIs** using **Java** and **Spring Boot**, contributing to **3+ core application features** deployed in production.
- Integrated **MySQL** using **JDBC** and **Spring Data JPA** for structured data storage, retrieval, and transaction management across modules.
- Implemented **JUnit unit testing**; collaborated in an **Agile/Scrum** team using **Git** for version control, branching, and **code reviews**.

Python Developer Intern

Jun 2025 – Sep 2025

Codec Technologies

Hyderabad, India

- Built **automated backend data-processing pipelines** using **Python**, reducing manual data ingestion effort by **~40%** and improving transformation workflow efficiency.
- Performed structured data analysis using **Pandas** and **NumPy**, extracting actionable business insights from large raw datasets — findings adopted in **2+ internal reports**.
- Optimized and refactored production application logic, improving **code modularity** and reducing average function complexity by **~30%** for long-term maintainability.

Projects

Hospital Management System | GitHub ↗

Java, Spring Boot, Spring Security, JWT, MySQL, Hibernate, REST API, Postman

- Architected a production-grade backend with **7 modules** — Auth, Doctor, Patient, Appointment, Medical Records, Billing, and Department — exposing **35+ REST API endpoints**, all validated via **Postman** test suites.
- Implemented **JWT stateless authentication** with **RBAC** for Admin, Doctor, and Patient using **Spring Security** and **@PreAuthorize** annotations.
- Designed a **normalized MySQL schema** with **7 tables**, foreign key constraints, and full **CRUD** via **Spring Data JPA** and **Hibernate ORM**; followed **MVC layered architecture** (Controller, Service Interface, ServiceImpl, Repository).

Student Management System | GitHub ↗

Java, Spring Boot, Spring Security, JWT, MySQL, REST API, JPA

- Built a complete backend with **6 modules** — Auth, Department, Teacher, Course, Attendance, and Marks — with **RBAC** for Admin, Teacher, and Student roles.
- Developed an **automated grade-calculation engine** (O/A+/A/B+/B/C/F), real-time attendance tracking, and semester result generation; secured all endpoints using **JWT** and **Spring Security** across a **6-table MySQL schema**.

Student Data Analytics Dashboard | GitHub ↗ | Live Demo ↗

Python, Pandas, Streamlit, Matplotlib, Decision Tree (scikit-learn)

- Built and deployed an **interactive web analytics dashboard** on **Streamlit Cloud** to visualize college student academic performance end-to-end.
- Applied a **Decision Tree classification model** and **Matplotlib** visualizations to extract and present meaningful insights from student datasets.

Education

Nalla Narasimha Reddy Education Society's Group of Institutions

Hyderabad, India

Bachelor of Technology in Computer Science and Engineering

Aug 2022 – Apr 2026 CGPA: 8.9 / 10

Certifications & Achievements

- HackerRank Stars:** Problem Solving **5★**, Java **3★**, Python **3★** | **Cisco:** Python Essentials
- HackerRank Certifications:** Problem Solving (Java), Java, Python, Node.js, Software Engineer Intern — View Profile ↗
